PLAYED WITH A GREAT MAN.

Carnegie Regarded Tom Morris as Among the World's Heroes.

As is well known, Andrew Carnegie is a devotee of the angient Scottish game of golf and never misses an opportunity to try his skill with stick and ball. When he was made a burgens of St. Andrew's, along with Lords Elgin and Balfour of Burleigh, he made a point of visiting the show places of the ancient city-the cathedral, the castle and the golf course. Among other clubmakers' places that of old Tom Morris faces the home hole. There Mr. Carnegle was met and welcomed by the Nestor of golf, old Tom, cap in hand. Mr. Carnegie haffed Tom as "the greatest man in the world," naming great soldiers, orators, musicians, principals and professors, none of whom could compare with Tom Morris, the greatest golfer. Pulling out his card, Mr. Carnegie wrote on the back of it, "To T. Morris, king of golfdom, from his loyal subject A. C.," which old Tom accepted with his old-world courtesy. Mr. Carnegie bargained with him for sets of clubs and for a match that he might be able to say: "I have played golf with old Tom Morris."

FOUND THEM HARD TO RAISE.

Slight Mistake Made by a Lover of Lobsters.

A great gormand, who had a passion for shellfish, inherited a fine estate and a large sum of money. He had been extravagant, and his friends were greatly rejoiced at his legacy. Mr. H. Barry, in "Ivan at Home," tells to what use the money was de-

I went to lown one day and soon learned that the prince was in his usual impecuatous condition.

Where has your legacy gone?" I asked

"Why," he replied, "you know that I am very food of lobsters, and having a river on my estate, I thought I would try to acclimatize them there; but unfortunately I have spent all the legacy in the attempt without succeeding. The quite forgot the water is not salt." -- Youth's Companion.

Repartee in the House.

A recent interchange of fire between Col. Hepburn of lows, and Gen. Grosvenor of Ohio on the floor of the House: "Gen. Grosvenor-The gentleman from Iowa does not believe that any public man was ever sincere or honest in his advocacy of a proposition and always looks around for a selfish motive. That is because the gentleman himself has no other standard of morality than that. Col. Hepburn-I draw the line somewhere; I draw it at Ohio people. I do not propose to hold the gentleman from Ohio responsible for what he has said. I recognize the fact that I myself am getting old and that some day I will be scnile."

Chance for Research.

Five-year-old Georgie had been taking a lively interest in school studies, especially in physiology and anatomy. We were studying an unfortunate porcupine, which had been caught in an apple tree, and we had made good IIlustrations of certain bones, when one day the girls took an old lounge apart. Maving watched the operation for some time, he came running to me, his eyes on fire with excitement, his cheeks flushed and his locks flying behind him: "Come, come," he cried. "if you want to study' phiserology, now's your chance. The girls have got the lounge all to pieces."-Little Chronicle.

Original Claim for a Pension.

Perhaps the most remarkable pension application ever presented in Congress is that embodied in a bill introduced by Congressman Pearre of Maryland. It recites with great gravity and a wealth of circumstantial detail that the applicant, when a child in arms in 1861, was so frightened by Yankee invaders in Maryland that he became paralyzed and has never been able to do any work. There is talk of awarding Congressman Pearre some kind of championship in view of the originality of his bill

Canada's Timber Lands.

The impression that British North America is covered with valuable timber is fallacious. Black walnut, red cedar and white oak are not found north of Toronto. A line drawn from the city of Quebec to Sault Ste Marie will designate the northern limit of beech, elm and birch. The north shore of Lake Superior will mark the northern boundary of sugar hard maple.

Male Teachers Decreasing.

The number of men employed as teachers in the public schools of this country, according to United States Commissioner of Education Harris is slowly but steadily decreasing. In 1870 41 per cent of the teachers were males, and in 1900 the percentage had fallen to 29. The reason for the abandonment of school teaching by men is that it does not pay well

HANNA AND HIS HASH.

Solicitude of a Serving Man Lest He indulge in it Too Freely.

As is generally known, Senator Hanna is inordinately fond of corn beef hash, and whenever he takes lunch at the capitol restaurant he orders that dish, which he has taught the cook to prepare in a manner peculiarly his own. As a result he has had many imitators and "corned beef a la Hanna" is a favorite luncheon dish with many senators. When Shaw, the head waiter of the senate restaurant, wants it prepared with unusual care he orders it this way:

"One corned beef hash for Senator Hanna."

The restaurant was doing a great business one day and everybody seemed to want corned beef hash. Fourteen times the order for "corned beef hash for Senator Hannah" was shouted to the chef. When the fifteenth order went down there was a rumbling noise in the kitchen and the chet shouted:

"That's fifteen orders for Senator Hanna. He better watch out or he'll founder hisself."

"THE WOMAN IN BUSINESS."

"Well-no," she answered slowly and thoughtfully. "That's a very different matter."

"But theoretically it---"There is no use arguing," she interrupted. "I don't care what it is theoretically. Practically it is very often a diamond, while the wedding ring is only plain gold, and that makes all the difference in the world."

Canadian Statesman in Washington. The physical counterpart of King Edward startled a great many observers in Washington last week in the person of William Ross, member of the Canadian parliament and a resident of Port Perry, Ont. He was escorted into the Senate chamber by Dolliver of Iowa and was warmly welcomed. He was able to give the American statesman a piece of information in regard to a mater then under discussion. A difference of opinion had developed as to whether cloture rules were in force in any of the Canadian parliamentary bodies. Ross said no such rule was Mr. known in eitsher house of parliament in Ottawa, and Mr. Hoar thereupor announced the fact in the Senate.

A Mixed-Up Embassy.

Someone called up the French embassy in Washington by telephone and said he wished to know something about Marquis De Chambrun' wife. He was informed that there are four De Chambruns and he answered that he meant the one who married an American girl. The conversation proceeded thus: "Three of them married American girls." "I'm after the one who married a girl from Cincinnati." "Two of them married girls from Cincinnati." "Great heav" ens! Which one is coming here to join the embassy staff?" "The Marquis De Chambrun. "I mean his wife." "He hasn't any wife; he is a bach

First of Rhodes' Scholarships.

The Tablet announces that the first two scholarships at Oxford granted under the terms of Mr. Rhodes' will have just been awarded by the government of Rhodesia. Both of the new scholars are Roman Catholics and students of the Jesuit college at Buluwayo. In a letter announcing the nominations Lord Grey pays a high tribute to the importance of the work which the Jesuit fathers have done in Rhodesia among both whites and blacks.

Flaw in the Reasoning.

Mr. and Mrs. Chuckster were engaged in one of their frequent arguments. "Now, Amanda, see here-"Get that right, Oliver," she interrupted. "The proper form, as you will see if you think a moment, is 'look here." "What's the difference?" he demanded. "You can't look without seeing, can you?" "Oh, yes, you can Everybody says you and I look alike. but it's a notorious fact that we don't see allke."

The Grip Leaves Thousands in its Path Weak, Nervous, Dyspeptic, Catarrh Wrecks.

IKE A DEMON grip has crossed our country, leaving behind scores of physical wrecks.

Victims of catarrh of the head, catarrh of the throat, catarrh of the lungs, catarrh of the stomach, catarrh of the kidneys, catarrh of the pelvic organs, are to be counted by hundreds of thousands. Grip is epidemic catarrh, and sows the seed of chronic catarrh within the system.

This is so true that few grip sufferers are able to make a complete recovery until they have used Peruna.

Never in the history of medicine has a remedy received such unqualified and universal eulogies as Peruna. A New York Alderman's Experience

Hon, Joseph A. Flinn, alderman Fifth District, writes from 104 Christopher street, New York City, as follows When a pestilence overtakes our people

we take precaution as a nation to preserve

the citizens against the dread disease 'La grippe has entered thousands of our homes this fall, and I noticed that the people who used Peruna were quickly restored, while those who depended on doctor's prescriptions, spent weeks in recovering,

leaving them weak and emaciated. 'I had a slight attack of la grippe and at once took Peruna, which drove the disease

out of my system in a few days and did not hinder me from pursuing my daily work. I should like to see our Board of Health give it official recognition and have it used generally among our poor aick people in Greater New York, "-Joseph A. Flinn. D. L. Wallace, a charter member of the

International Barber's Union, writes from 15 Western avenue, Minneapelis, Minn. 'Following a severe attack of la grippe I seemed to be affected badly all over. I suffered with a severe backache, indigestion and numerous ills, so I could neither eat nor sleep, and I thought I would give up

my work, which I could not afford to do.
"One of my customers who was greatly helped by Peruna advised me to try it, and procured a bottle the same day. I used t faithfully and felt a marked improvement. During the next two months I took five bottles, and then felt splendid. Now my head is clear, my nerves steady, I enjoy food, and rest well. Peruna has been worth a dollar a dose to me."—D. I., Wallace. Mr. O. H. Ferry, Atchison, Kansas,

"Again, after repeated trials of your medicines, Peruna and Manalin, I give this as my expression of the wonderful results of your very valuable medicine in its effects in my case after repeated trials.

"First, it cured me of chronic bronchitis of fifteen years' standing, by using two bottles of Peruna in January, 1894, and no return of it.

"After I was cured of bronchitis I had la grippe every winter for several winters. But, through the use of Peruna, it got gradually weaker in its severity, until it dwindled down to a mere stupor for two or three days. Now the stuper does not trouble me any more. '-O. H. Perry.

A Congressman's Experience.

Peruna Medicine Co., Columbus, Ohio. Gentlemen-"I am more than satisfied with Peruna, and find it to be an excellent remedy for the grip and cattarh. I have used it in my family and they all join me in recommending it as an excellent remedy." Very respectfully,

George H. White.

If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice
